Skyhigh Gold

Japanese Toray Carbon Nano+

MODEL	LENGTH	SECTION	CARBON FIBER	WEIGHT	PACKAGE
Skyhigh Gold 9054	9ft	4	IM12/40T+46T Toray carbon	#5	Carbon rod tube
Skyhigh Gold 9064	9ft	4	IM12/40T+46T Toray carbon	#6	Carbon rod tube
Skyhigh Gold 9084	9ft	4	IM12/40T+46T Toray carbon	#8	Carbon rod tube

Made of high modulus, low resin A-helical core IM12 Toray carbon fiber from Japan.
Nano Technology reinforced, Super-light, responsive, and extremely sensitive and strong.
Tip Flex Fast Action, AAA Grade Cork grip, Gold Finish with High end Guides, Aluminum reel seat with burl wood insert.
The best fly rod we have ever made.

Skyhigh

Japanese Toray Carbon Nano+

MODEL	LENGTH	SECTION	CARBON FIBER	WEIGHT	PACKAGE
Skyhigh 6023	6ft	3	IM12/40T+46T Toray carbon	#2	Carbon rod tube
Skyhigh 7634	7ft6	4	IM12/40T+46T Toray carbon	#3	Carbon rod tube

Fly Fishing Reel

100% Sealed Drag Fly Reel VM (Heavy Duty Saltwater)

SIZE	OUTSIDE DIA.(mm)	WEIGHT (G)	SPOOL WIDTH (mm)
5/7	86	30	30
7/9	93	34	32
9/10	102	39	34
10/12	108	65	34

This is the best ever fly reel we have made in our range; all of the best selling concept is included in one reel.
100% sealed drag system for waterproof, and the multi-disc drag system make it to be the strongest reel in our range. V shape spool offer enough line capacity while offer swift line retrieve.
Machine cut reel foot gives you big confidence to fight the biggest fish. Rubber ring on thebalance help to fix the tippet.

Fly Reel TIMEFLY CNC Cut Waterproof

SIZE	OUTSIDE DIA.(mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
3/5	83	52	25
5/7	90	59	27
7/9	97	67	30

Super light CNC cutting Super large arbor design Waterresistant Smart seal drag system
The original idea of this reel comes from a lovely watch. Originally designed by LEICHI fly reel factory
More discount available for more than 100 pc each size

Fly Reel HVC Super Light Waterproof

SIZE	OUTSIDE DIA.(mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
3/4	83	58	27
5/6	90	62	27
7/8	97	66	27
9/10	104	71	27
11/12	104	71	34

This HVC reel is our own design reel. It is the No.1 seller in our range.
The most strength of this is the Super light design. This very cool cutting make this reel to be the most light reel in the market with the sealed drag system.
The drag system is protected by the drag cover in the center. No dust or sand can get into the drag. But for make the reel lighter and just right enough for usage. This drag is not 100% sealed. So a few water still can get into the drag. So if you use it in saltwater, after the usage, it is better to clean it for long time usage
Even though not 100% sealed, it is still definitely better than most of the reel that they call them to be waterproof.
We are honest to the customers. So we call this reel to be Semi-waterproof

Fly Reel Shield CNC Machine Cut 100% Sealed 3ATM Waterproof

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
5/6	90	63	27
7/9	97	68	27
9/11	104	71	27
11/13	113	74	27

Fly Reel MC Classic Stable performance

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
2/3	74	43	27
3/4	83	54	27
5/6	90	60	27
7/9	97	67	27
9/11	104	70	27

The MC reel is a very classic reel. With a traditional design.
The selling point is that it is very stable. It has been proved by the market for a long time. Not very cool sun looking.
Not very new function. It is just good enough for you to catch the fish very smoothly.
And very important is that it is very competitive in price for the high performance.
So I call it to be the most cost effective reel in our range.

Fly Reel NVC Large arbor CNC cut

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
3/5	83	52	27
5/7	90	58	27
7/9	97	62	30
9/11	104	67	30

The NVC reel is designed to be a hit in the market for the price. I designed it to aim of the market of big chain stores and super market. Or all of the price-sensitive market.
This is a very simple reel. The drag is simple but with the enough function for most of the fish. For a professional fly fisher, this may not enough to handle all of the monster fish. But for a beginner or a friend who just want to have a try for fly fishing, this is definitely a decent reel to use.
You can fish with it for one or two years. And then decide if to upgrade your tackle to fight for more experience, or just use this for a happy time in some water without monster.

Fly Reel 06N — Affordable Quality CNC Cut

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
2/3	68	39	20
3/4	74	40	21
5/6	86	46	23
7/8	94	50	27
9/10	94	50	34

This 06N reel is developed to be a complement for our whole fly reel range.
This is a very standard reel in themselves. With a common drag system. Also take cover of the middle and high end fly reel market.
We set up a new factory to make the reels that were made by many other factories for similar model.
However based on our experience in the fly reel develop mount and production. For a standard reel, we still can make it better quality than most of the competitor. And also with a more competitive price.
This is the best price machine cut fly reel that are still workable and trustable in the market.

Fly Reel DK — Best Combination of CNC and Die Casting

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
3/5	75	39	21
5/7	86	45.5	23
7/9	94	49.5	27

The original idea of this reel is to build a very light reel for a very affordable price with still with a waterproof powerful drag system.
Thanks to the progress on the Die-casting technique.
We can make the reel by die-cast but with the same accuracy and small tolerance as CNC cutting.
So honestly, the performance of the reel is the same good as the CNC reels.
And we use the advantage of die-casting. To make the reel foot and balance to be in one body on the frame and spool. This make the reel to be even lighter and sense of modern technology.
The spool cap and drag knob are still made by CNC cutting.
Obviously, this is best waterproof reel at this price level in this industry.

SuperLite Fly reel DL (super light Die-cast)

SIZE	OUTSIDE DIA (mm)	WEIGHT (G)	SPOOL WIDTH (mm)
5/6	86	50	26
7/8	94	56	26

Combined with CNC cut and Die-casting technique.
With the upgraded technique of pressure cast process. We make this reel to be perfect accurate but with the lowest price in the market.
Assembled in the same line as our top quality CNC cutting reels by the same experienced workers.
Even to compare with a double-price CNC cutting reel. This reel will also be a good choice.

Fly Reel DX Super Light Die-cast

SIZE	OUTSIDE DIA.(mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
5/6	86	50	26
7/8	94	56	26

This is the best over fly reel we made by die-casting.
With the upgraded technique of pressure cast process. We make this reel to be perfect accurate but with the
lowest price in the market.
Assembled in the same line as our top quality CNC cutting reels by the same experienced workers.
Even to compare with a double-price CNC cutting reel. This reel will also be a good choice.

Cassette Fly Reel DP Die-cast (Cassette)

SIZE	OUTSIDE DIA.(mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
5/7	86	42	28
7/9	94	49	28

The DP reel is based on the DM reel. But to be a cassette version.
Very good choice for you to handle different water and fish. It is good choice when you are not going to spend a lot of money for many reels.
This reel has been proved to be a very good choice to include.

Fly Reel TDC Die-cast Aluminium (Most Cost Effective)

SIZE	OUTSIDE DIA.(mm)	INSIDE DIA. (mm)	WEIGHT (G)
5/7	86	28	158
7/9	94	28	170

Totally designed by Leichi Poland Branding.
For any order that is more than 500 pc. We can offer a special discount.
This is the best over reel we have made in this price range. Also for sure, the best rod for this price in the market. For controlling the cost. We have invested for the best moulds to lower the cost of production. The reel foot is made of one-body design with the housing. And the balance is also made one body with the spool.

Fly Reel ALC/BLC DIE-CAST Aluminium

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
1/2	58	17	89
2/3	60	21	94
3/4	70	23	106
5/6	74	25	130
7/8	85	28	153
9/10	95	30	223

The ALC reel is a very standard reel in the market.
It is made by many different factories for the same or similar reel. The selling point for this reel is mostly on its price.
Although it is made by die-casting, it is at least an aluminium fly reel. For a price in this level, We must say it is still very attractive. If you do not want to spend a lot of money on the reel. Or just want to get a spare reel.
This is also a right choice. Although I do not fish with this reel myself. But when my friend told me that they want to try if they will like to play fly fishing. Then I will also be glad to give this reel to them. So after awhile, they can decide if to invest to upgrade to better reels.

Fly Reel FSRT Die-cast Rainbow Trout Skin

SIZE	OUTSIDE DIA (mm)	SPOOL WIDTH (MM)	WEIGHT (G)
74	74	25	153
85	84	30	223
94	94		

The FSRT reel is the FISHSKIN version of the BLC reel.
The selling point for this reel is mostly on its price. Although it is made by die-casting, it is still an aluminium fly reel. For a price in this level, We must say it is still very attractive.
If you do not want to spend a lot of money on the reel. Or just want to get a spare reel. This is also a right choice.
Although I do not fish with this reel myself. But when my friend told me that they want to try if they will like to play fly fishing.
Then I will also be glad to give this reel to them. So after a while, they can decide if to invest to upgrade to better reels.

Fly Reel CDB (Classic Click-Pawl)

SIZE	OUTSIDE DIA (mm)	INSIDE DIA. (mm)	SPOOL WIDTH (mm)
2/3	66	33	23
3/4	72	33	23

This Classic CDB reel is our clicker and pawl trout fly reel.
Very light but also very durable and stable performance
CNC machined from 6061-T6 aluminum bar stock
With a quick release spool structure
Easily converts to light or left hand retrieve

Fly Reel CLA (Classic Design)

SIZE	OUTSIDE DIA (mm)	IWEIGHT (G)	SPOOL WIDTH (mm)
3/5	81	29	22
5/7	86	29	22

This is our new classic fly reel developed in 2013 to meet the need of the market.
Many clients has asked us to make a classic reel.
Now, after collecting the advices from any customers, we finally worked out one that is fully developed by our self. For the size of 3/4 and 5/7, considering not a very strong drag power is needed.
Because many of our anglers would rather to hold the fish with own hands.
We decided to use a clicker drag system on this reel.

Centerpin Floating reel Freeflow (Classic Design)

SIZE	OUTSIDE DIA (mm)	SPOOL WIDTH(mm)	WEIGHT (mm)
Center pin	122	18	190
3/4	72	33	23

Center pin float reel Quality CNC Cut

SIZE	OUTSIDE DIA (mm)	SPOOL WIDTH (MM)	WEIGHT (G)
Center pin	113	25	180

This is the best made center pin reel in China
This reel is SMOOTH! Precision machining, high quality bearings and perfect balance result in a spool that spins effortlessly and without interruption.
We know what is important for a center pin reel.
So although we want to make the reel cost competitive.
We still decide to use the Grade 5 bearing made in Japan for the reel. This make it totally exclusive comparing with the others in the market.

Fly Reel HSP PLASTIC

SIZE	OUTSIDE DIA (mm)	WEIGHT (G)	SPOOL WIDTH (mm)
3/4	75	47	25
5/6	85	52	25
7/8	95	60	25
9/10	110	52	30

Fly Reel GLA PLASTIC

SIZE	OUTSIDE DIA (mm)	WEIGHT (G)	SPOOL WIDTH (mm)
1/2	52	17	64
3/4	62	17	84
